Accounting Specialist Fast Track

Prerequisites: High school/GED and proficiency in reading, writing, mathematics, and speaking English.

This course is a study of basic accounting cycle from the source documents to the post-closing documents. Using a workbook, learners will have the opportunity to analyze, record, journalize, post, etc. for a fictitious business. Learners will acquire the understanding of banking procedures and control of cash. Students will also be exposed to the payroll process by calculating, paying, recording, and reporting payroll and payroll taxes.
